Homework Assignment 1

Centered container, 5pts

Create the html/css structure as shown in class and according to the wireframe diagram below.

You must have a separate html file and css file. Use the LINK tag to connect the css to the html. Create all the formatting in the external css file.

Below are some properties for the css.

body {
        padding: 0;
        margin: 0;
        background-color: #cccccc;
        font-size: 100%;
        line-height: 1.2em;
        color: #333333;
        font-family: georgia, times, serif;
}
.container {
        width: 960px;
        background-color: #ffffff;
        margin: 50px auto;
        padding: 10px;
        font-size: .9em;
}

Name your root folder '**HW1_yourlastname**'. Upload the files to your gozips server and add a link from your homepage.

This is going to be the basic HTML structure for all homework documents:

```
<!DOCTYPE HTML PUBLIC "-//W3C//DTD HTML 4.01//EN" "http://www.w3.org/TR/html4/strict.dtd">
<html>
  <head>
      <meta http-equiv="Content-Type" content="text/html; charset=UTF-8" />
      <title>title of homework</title>
  </head>
  <body>
  </body>
```

body	.container
